

GARVIT GUPTA

+91-8764182811 garvitgupta563@gmail.com [LinkedIn](#) [Github](#)
Product Intern • AI-Driven Builder • Cross-Functional Executor • Outcome-Focused Thinker

PROFILE SUMMARY

Aspiring Product Intern with hands-on experience shipping three products end-to-end — from user research and requirement definition to launch and iteration. Skilled in feature prioritization, user journey mapping, and Agile workflows, with outcomes improving operational efficiency by up to 45%. Passionate about solving real user problems through structured thinking and data-driven decision-making.

EDUCATION

Vellore Institute of Technology <i>Bachelor's in CSE Specialization in Artificial Intelligence & Machine learning</i>	Nov. 2022 – Nov. 2026 CGPA : 7.99
Maheshwari Public School <i>Higher Secondary Certificate (HSC)</i>	2020-2021 Percentage: 76.6%

PROJECTS

WebHome <i>Node.js, Express.js, MongoDB, EJS, CSS, JavaScript</i> Link	Jun 2025
- Identified inefficiencies in manual booking workflows and designed an automated system, reducing operational effort by 35% - Defined end-to-end user flows for property listing, booking, and user management to improve usability - Built and validated REST APIs enabling smooth and reliable frontend-backend communication - Conducted manual and API testing using Postman to enhance feature reliability and reduce defects - Designed regression testing scenarios to maintain product stability before deployment	
Policy Insurance System <i>React.js, Node.js, Express.js, MySQL, Tailwind CSS</i> Link	Feb 2024
- Streamlined policy workflows, reducing administrative processing time by 40% and improving efficiency - Implemented role-based access control (RBAC) to enhance data security and enable better user segmentation - Reduced data errors by 30% through input validation and structured database schema design - Designed scalable backend architecture supporting multiple user roles and efficient workflow management	
Food Ordering Website <i>React.js, Node.js, Express.js, MongoDB, Stripe API</i> Link	Oct 2024
- Built end-to-end ordering system reducing manual order handling by 45% and improving efficiency - Designed separate customer and admin journeys to enhance usability and overall user experience - Integrated secure Stripe payment system with real-time order tracking and reliable transaction handling - Developed scalable APIs for cart, orders, and menu management ensuring smooth system performance	

TECHNICAL SKILLS

Product Skills: Product Thinking, User Journey Mapping, Workflow Optimization
Analytical Skills: Problem Solving, Data-driven Decision Making
Languages & Frameworks: JavaScript, Python, Java, HTML5, Tailwind CSS, React.js, Node.js, Express.js
Databases & Testing: MongoDB, MySQL, Manual Testing, API Testing (Postman), Regression Testing
Product Development: REST APIs, JWT Authentication, RBAC, Modular Architecture

CERTIFICATIONS & ACHIEVEMENTS

- IBM Blockchain Developer [Link](#)
- IBM GEN AI Using IBM Watsonx [Link](#)
- Core member of Edu4U Club, supported team members in organizing activities and events
- Represented college in 5+ inter-college cricket tournaments, developing teamwork and collaboration
