Product Intern • AI-Driven Builder • Cross-Functional Executor • Outcome-Focused Thinker

PROFILE SUMMARY

Aspiring Program/Product Management Intern with hands-on experience shipping 3 end-to-end products from user research to launch. Skilled in structured problem-solving, workflow optimization, and cross-functional collaboration, delivering solutions that improved operational efficiency by up to 45%. Strong communicator and proactive team contributor, passionate about driving growth through data-driven execution and user-focused thinking.

EDUCATION

Vellore Institute of Technology	Nov. 2022 – Nov. 2026
<i>Bachelor's in CSE Specialization in Artificial Intelligence & Machine learning</i>	<i>CGPA : 8.04</i>
Maheshwari Public School	2020-2021
<i>Higher Secondary Certificate (HSC)</i>	<i>Percentage: 76.6%</i>

PROJECTS

WebHome Link	Jun 2025
- Identified friction in manual booking workflows through observation and defined automation requirements, reducing operational effort by 35% - Defined end-to-end user flows for property listing, booking, and user management to improve usability - Mapped user journeys for property listing and booking to improve usability and reduce drop-offs - Collaborated across frontend-backend to ensure seamless user experience - Designed regression testing scenarios to maintain product stability before deployment	
Policy Insurance System Link	Feb 2024
- Analyzed inefficiencies in policy management workflows and redesigned processes, reducing admin effort by 40% - Segmented users (admin, agent, customer) and defined role-specific experiences to improve usability - Introduced validation mechanisms to reduce data errors by 30%, improving data reliability - Structured system to support scalable workflows aligned with business needs	
Food Ordering Website Link	Oct 2024
- Identified inefficiencies in manual ordering and designed an end-to-end digital ordering experience, reducing processing time by 45% - Designed separate user journeys for customers and admins to improve usability and operational control - Prioritized real-time order tracking and secure payments to enhance user trust and engagement - Iterated on system performance to ensure smooth ordering experience under load	

TECHNICAL SKILLS

Product Skills: Product Thinking, User Journey Mapping, Workflow Optimization
Analytical Skills: Problem Solving, Data-driven Decision Making
Languages & Frameworks: JavaScript, Python, Java, HTML5, Tailwind CSS, React.js, Node.js, Express.js
Databases & Testing: MongoDB, MySQL, Manual Testing, API Testing (Postman), Regression Testing
Product Development: REST APIs, JWT Authentication, RBAC, Modular Architecture

CERTIFICATIONS & ACHIEVEMENTS

- IBM Blockchain Developer [Link](#)
- IBM GEN AI Using IBM Watsonx [Link](#)
- Core member of Edu4U Club, supported team members in organizing activities and events
- Represented college in 5+ inter-college cricket tournaments, developing teamwork and collaboration
