PROFILE SUMMARY

Aspiring QA Engineer with hands-on experience in Manual Testing, API Testing, and SQL-based data validation. Skilled in test case design, bug reporting, and defect lifecycle management with strong knowledge of SDLC and STLC. Proficient in REST API testing using Postman and familiar with automation tools like Selenium WebDriver and TestNG.

TECHNICAL SKILLS

Languages & Frameworks: Java, HTML, CSS, React.js, Node.js, Express.js

Testing & QA: Manual Testing, Bug Reporting, Regression Testing, Sanity Testing, SDLC, STLC, Bug Lifecycle, API Testing

Tools: Git, GitHub, Postman, Jira(Basic), Bugzilla(Basic), VS Code, Selenium WebDriver (Basic), TestNG (Basic)

Databases & Core CS: MongoDB, MySQL, Data Structures & Algorithms, OOPs

PROJECTS

WebHome | GitHub

Jun 2025

- Designed and executed test cases for authentication and session management modules, validating secure user access and session handling
- Designed & Tested **RESTful APIs** for property CRUD operations and user management using **Postman**
- Built automated booking system reducing manual management by **35%** through validation and conflict detection
- Created responsive **EJS templates** with form validation and implemented **MVC architecture**
- Designed and executed manual test scenarios for booking workflows, form validation, and conflict detection – verifying end-to-end user flows across the platform

Policy Insurance Website | GitHub

Feb 2024

- Designed and executed test cases for authentication and security modules, validating **JWT-based** access control and secure **password hashing using bcrypt**
- Implemented & Tested input validation, sanitization logic across all form fields, reducing data integrity errors by **30%**
- Designed **Role-Based Access Control** (RBAC) to secure sensitive user and policy information
- Created & Executed SQL test queries against normalized **MySQL schema** to validate data integrity, foreign key constraints, and relational data correctness

Food Ordering Website | GitHub

Oct 2024

- Designed & executed test cases for food ordering workflows, ensuring 45% improvement in order processing
- Performed end-to-end manual testing for food ordering and payment workflow; conducted **Sanity** and **Regression** testing after bug fixes to verify application stability
- Implemented **JWT-based authentication** with secure token generation, storage, and session validation
- Integrated third-party APIs (**Stripe**) with **webhook** event handling and asynchronous backend processing
- Validated **MongoDB schema** indexing for users, orders, and cart to confirm data consistency and query accuracy

EDUCATION

Vellore Institute of Technology

Nov 2022 – Jun 2026

Bachelor's in CSE Specialization in Artificial Intelligence & Machine learning

CGPA: 7.99

Maheshwari Public School

2020 – 2021

Higher Secondary Certificate (HSC)

76.6%

EXTRA-CURRICULAR

Achievements & Activities

- Solved 150+ DSA problems, strengthening algorithmic thinking and problem-solving skills.
- Core member of Edu4U Club, supported team members in organizing activities and events
- Represented college in 5+ inter-college cricket tournaments, developing teamwork and collaboration

Languages & Interests: English, Hindi, Cricket, Badminton, Travelling
